

Technical Rider	
Performance	THE DEVIL TAKE YOU!
Direction	Tomáš Dvořák
Music	Michal Vaniš
Duration	60 min
Set up	4 hours
Dismantling	1,5 hour
Acteurs	1 women, 1 man
Technicians	3 men
Production	2 men
Lights	6x FHR 500W , plug for 380V/32 A
Scene	<p>Stage – 5m width, 4m depth, 3,5m high. 9 platforms (2x1m) + 1 platform (1x1m) – this platform will be without legs (just table). Others platforms - 60cm high.</p> <p>We have to fix the scene by drilling screws to the floor (also to the platforms).</p> <p><u>The show is usually played in the club scene with the capacity between 80 and 150 seats.</u></p> <p>In the middle of the auditorium there is necessary to have a corridor for the actress during the show. The need to place our data-projector to the position where it will not be interfered with the actress or audience. Minimal room in between the auditorium and the scene. No wide angles of seats on both sides against a scene.</p> <p>It is necessary to consult particular venue with technical manager or tour manager!</p>
Sound	Own.
Notes	<p>We need to place our projector for front projection (in sound cab, or some place in auditorium).</p> <p>Open fire on the stage</p>
First Night	10.12.2012
Transport	Plain /car
